Summary of reasons for decision:

The publication contains additional content derived from, and designed to be played in conjunction with, a console game originally examined and classified by the Office of Film and Literature Classification (Fallout 3, OFLC No. 801789, registered 15 September 2008). This game was classified "Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years" and given the descriptive note "Graphic violence and offensive language".

The extra material is made up of alternate gaming environments, bonus missions, additional weaponry, and new achievements. These extra components deal with matters of cruelty, violence and highly offensive language in a similar manner to the original game, and do not require this publication to be given a different classification to the original game.
